<b>Topics</b>	<p>a. Describe the roles of financial reporting and financial statement analysis</p> <p>b. Describe the roles of the statement of financial position, statement of comprehensive income, statement of changes in equity, and statement of cash flows in evaluating a company's performance and financial position.</p> <p>c. Describe the importance of financial statement notes and supplementary information --- including disclosures of accounting policies, methods, and estimates --- and management's commentary.</p> <p>d. Describe the objective of audits of financial statements, the types of audit reports, and the importance of effective internal controls</p> <p>e. Identify and describe information sources that analysts use in financial statement analysis besides annual financial statements and supplementary information.</p> <p>f. Describe the steps in the financial statement analysis framework.</p>
<b>a. describe the roles of financial reporting and financial statement analysis</b>	<p><b>Financial reporting:</b> refers to the way companies show their financial performance to investors, creditors, and other interested parties by preparing and presenting financial statements.</p> <p><b>Financial statement analysis:</b> use the information in a company's financial statements, along with other relevant information, to make economic decisions.</p> <p>-example: whether to invest in company's securities</p>

<b>b. describe the roles of the statement of financial position, statement of comprehensive income, statement of changes in equity, and statement of cash flows in evaluating a company's performance and financial position</b>	Balance sheet	Income Statement	Cash Flow Statement
	Financial position	Financial performance	Changes in cash
	Assets=liabilities+ owners' equity	Revenues-Expenses=Net income	Operating cash flows + Investing cash flows + Financing cash flow
	Statement of comprehensive income: reports all changes in equity except for shareholder transactions. The statement of changes in equity: reports the amounts and sources of changes in equity investors' investment in the firm over a period of time.		
<b>c. Describe the importance of financial statement notes and supplementary information --- including disclosures of accounting policies, methods, and estimates --- and management's commentary</b> <b>e. Identify and describe information sources that analysts use in financial statement analysis besides annual financial statements and supplementary information.</b>	<b>Financial statement notes (footnotes)</b>	<ul style="list-style-type: none"> <li>- Discuss the basis of presentation such as <i>fiscal period</i> covered by the statements and the inclusion of consolidated entities.</li> <li>- Provide information about <i>accounting methods, assumptions, and estimates</i> used by management</li> <li>- Provide additional information on items such as <i>business acquisition or disposals, legal actions, employee benefit plans, contingencies and commitments, significant customers, sales to related parties, and segments</i> of the firm.</li> </ul>	
	<b>Management's discussion and analysis (MD&amp;A)</b>	In this section, management discusses a variety of issues, including the nature of the business, past performance, and future outlook. For publicly held firms in the United States, the SEC requires that MD&A discuss trends and identify significant events and uncertainties that affect the firm's liquidity, capital resources, and results of operations.	
	<b>Quarterly or semiannual reports</b>	Update the major financial statement and footnotes	
	<b>Security and Exchange Commission (SEC) filings</b>	<ul style="list-style-type: none"> <li>-Form 8-K: company file to report events such as acquisitions and disposals of major assets, changes in its management or corporate governance</li> <li>-Form 10-K: annual financial statements</li> <li>-Form 10-Q: quarterly financial statements</li> </ul>	
	<b>Proxy statements</b>	Issued to shareholders when there are matters that require a shareholder vote. Good source of information about the election of board members, compensations, management qualifications, and issuance of stock options	
	<b>Corporate reports and press releases</b>	Can be found on company's website	
	<b>Other</b>	Information of economic conditions, industry, competitors	
<b>d. Describe the objective of audits of financial</b>	<b>1. Audit</b> is an independent review of an entity's financial statements. The objective of an audit is to enable the auditor to provide an opinion on the <b>fairness</b> and <b>reliability</b> of the financial statements.		

<p><b>statements, the types of audit reports, and the importance of effective internal controls</b></p>	<p>The independent <i>certified public accounting firm</i> employed by the Board of Directors is responsible for seeing that the financial statements conform to the applicable accounting standards.</p> <p>The <b>standard auditor’s opinion</b> contains three parts and states that:</p> <ol style="list-style-type: none"> <li>1. Whereas the financial statements are prepared by management and are its responsibility, the auditor has performed an independent review.</li> <li>2. Generally accepted auditing standards were followed, thus providing <i>reasonable assurance</i> that the financial statements <i>contain no material errors</i></li> <li>3. The auditor is satisfied that the statements were prepared <i>in accordance with accepted accounting principles</i> and that the <i>principles chosen and estimates made are reasonable</i>. The auditor’s report must also contain additional explanation when accounting methods have not been used consistently between periods.</li> </ol> <p>Unqualified opinion (clean opinion): statements are free from material omissions and errors                  Qualified opinion: statements make any exceptions to the accounting principles                  Adverse opinion: statements are not presented fairly or are materially nonconforming with accounting standards                  Disclaimer of opinion: auditor unable to express an opinion</p> <p>2. Internal controls</p> <ul style="list-style-type: none"> <li>- processes by which the company ensures that it presents accurate financial statements.</li> <li>- responsibility of management</li> <li>- Under GAAP, the auditor must express an opinion on the firms internal control. The auditor can provide this opinion separately or as the fourth element of the standard opinion.</li> </ul>
